I was satisfied with this course and have ~~no~~ detailed comments.

What strengths did this instructor demonstrate that helped you to learn in this course?

She is incredibly enthusiastic about the course material. While the class is reluctant (too cool) she does well to get us involved. Her examples are well detailed and extensive.

Please provide specific suggestions as to how the instructor could have helped you learn more effectively.

She actually corrected herself during the teaching of my class – she adapted to speed the lectures up enough for those ahead and kept the pace slow enough for beginners. Honestly she did it herself and deserves praise for it.

What are the main strengths of this course?

Combined learning/teaching techniques of computer notes
↳ walked through written examples. ~~I'd love for~~

Please provide specific suggestions as to how this course could be improved.

I'd love to see the lectures recorded and posted to the site for reference or if you were forced to miss a class. Audio only would even work.
