What strengths did this instructor demonstrate that helped you to learn in this course?

- Celina was always positive and engaging
- Learned concepts that apply to life/other courses

Please provide specific suggestions as to how the instructor could have helped you learn more effectively.

- The lecturer had little/nothing to do with techniques and info needed for final project (actual making of game) which made having no background nearly impossible

What are the main strengths of this course?

- interactive

Please provide specific suggestions as to how this course could be improved.

I do not think this should be 1<sup>st</sup> year class unless the lecture are changed to teach things needed in game maker. Having no previous knowledge (as there are no pre reqs) made doing the final project impossible w/o extreme help.

To me at least, it did not seem as though the instructor was very familiar with the course material. Most days she read straight off the slides, adding nothing to what was on them.
