| 6 | This course is a little hard. You can explain more specificly in class |
| 7 | The instructor demonstrated effective teaching with full energy, always trying to involve students to ongoing class. Every lecture was constructive with the help of TAs. |
| 8 | The course is great the teacher is kind |
| 9 | Sometimes coding a function is a little tough without knowing appropriate structures. Algorithm should be included in this course. |
| 10 | Some knowledge is really hard to understand for students who did not study the course before |
| 11 | She is professional in teaching and easy to communicate, but more help with assignment would be better. |
| 12 | She is a awesome instructor. |
| 13 | Prof. Berg is quite concerned about the students' learning. |
| 14 | Great instructor, her class is very useful, the idea is so clear with her presenting. This course becomes much more easier to learn with her help |

| 18 | Did well: She is pretty patient for every student. |
| 19 | Celina's an super enthusiastic instructor! She definitely knows how to inspire students' interest into Computer Science! In class, she illustrates the course content very well and super clearly. The way she interact with TAs and students is cute =) I especially like the fact that she knows how students of different personalities think and the way she encourages us to get to approach a difficult problem, to work with other students, to listen to others' opinions, to collaborate and do some awesome job effectively that a single person may spend hours and hours to complete. In office hour and prof talk, she's also a super nice person!!! She's my favorite teacher =) |
| 20 | Celina is a super instructor for computer science! Really make me interested in pursuing major in compsci. Just wanna say that his course is a really fast pacing course that sometimes the students are out of breathe if they fall behind:( |
| 21 | Celina is very nice and helpful. |
| 22 | Celina is great and willing to help us students. I think it might be better to shorter the video for cpsc110. As some of the video can be improved. Or some content in the video should move to lecture |
| 23 | A great teacher! we can understand what she taught for us in the class. |
