1	This is one of my favorite class, Celina Berg is an excellent instructor because she always look for ways to make us understand what the class is about but also to actively participate in class giving our opinion about a specific topic. As well as cares about us out of class and if we need help in any way. :)
2	The notes during course can help us review if being posted on connect. Sometimes the questions were hard to answer because of new vocabularies and concepts of new academic words.
3	She is the most energetic instructor I have personally have seen so far. She always welcome to have discussion and provided some her own opinions as well without denying the student's opinion.
4	Patient
5	My instructors tends to make the course more interesting and are really concerned about students' advice
6	In SCIE 11 class, we always can get the opportunities to discuss academic and popular science topics together, which gives me valuable experience for me.
7	Great teacher!
8	Celina is fine instructor and enthusiastic in this course. However, sometimes i think the preclass activities are becoming a burden, especially when we already have other big project, e.g term paper.
